

Section B

Section B provides a place for the offeror to state its prices for the required services, optional performance periods, optional work scope(s), how funds will be obligated with regard to the Statement of Work(SOW), and a brief statement of what the successful offeror is expected to furnish necessary or incidental to performance set forth by the SOW and/or elsewhere in the RFP. It is the Department's intent to obligate sufficient funds to be used in the unlikely event of termination for convenience of the contract during conversion facilities design and construction phases.

The Section B Table of Contents follows. Section B will be included in the final draft RFP to be issued at a later date.

TABLE OF CONTENTS

- B.1 ORO B01 ITEMS BEING ACQUIRED (ALTERNATE I) (MAY 1997)
- B.2 OPTIONS (MAY 1999)
