

Section E

Section E provides a brief definition of the term “services” and sets forth the Government right, through any authorized representatives at all reasonable times to inspect, test, or otherwise evaluate and accept all of the services set forth by the contract on or off the premises of the contractor or its subcontractors in such a manner which will not unduly delay the work. The section also sets forth the Government requirement for the contractor to provide and maintain an inspection system acceptable to the Government for the services to be performed under the contract. Lastly, the Contracting Officer, or his/her formally appointed or designated representative, will have sole responsibility for accepting the work and effort, including reporting set forth by the contract.

The Section E Table of Contents follows. Section E will be included in the final draft RFP to be issued at a later date.

TABLE OF CONTENTS

- E.1 52.246-4 INSPECTION OF SERVICES--FIXED-PRICE (AUG 1996)
- E.2 ORO E03 INSPECTION (MAY 1997)
- E.3 ORO E05 ACCEPTANCE (MAY 1997)
