ATTN OF: AD-442:Kent

SUBJECT: **VOLUNTARY SOLICITATION - GENERAL ENGINEER**

TO: All ORO Employees

The Office of Assistant Manager for Defense Programs has a vacancy for a General Engineer, GS-801-13, in the Technical Division at Y-12. The incumbent of this position will serve as the technical authority for processes and systems associated with enriched uranium chemical processing. Specific duties include reviewing and recommending approval of authorization basis development, modification, and implementation in the design, testing, start-up, and operation of enriched uranium chemical processes. The incumbent will provide technical oversight of contractor activities associated with preparation of material for assigned processes to ensure safe, effective implementation of programmatic functions; perform field assessments to assure contractor compliance with orders and standards; and provide input for incentive fee processes.

If you wish to be considered for this position, you may express interest by visiting the Human Resources Division web site at www.oro.doe.gov/pmab. Click on the employment icon and scroll to the area designated as Voluntary Solicitation. Employees who have registered in the Voluntary Solicitation Database by December 24, 1999, will be considered for this position.

Questions regarding this solicitation of interest should be directed to Melanie Kent at (865) 576-0673 or kentmm@oro.doe.gov.
